

BARSOO APPROVED VENDOR LIST

(Iranian Companies)

1405 – 1406

	Document Title: Local Approved Vendor List	
	Document No.: 030-Z001-04	
Barsoo Engineering Co.	Revision: 04	Page: 2 Of 38

TITLE	DOCUMENT CODE
Approved Vendor List	030-Z001-04

	PRE.	CK.	APR.
Name	M. Tafazoli	M. Tafazoli	A. Derakhshan
Position	Inspection Expert	Inspection Expert	Inspection Manager
Date	April.16.2026	July.19.2026	July.21.2026

First Issue Date	Last Issue Date	Expire Date
September.23.2014	July.21.2026	September.22.2026

Name: Local AVL	Pages: 38
-----------------	-----------

	Document Title: Local Approved Vendor List	
	Document No.: 030-Z001-04	
Barsoo Engineering Co.	Revision: 04	Page: 3 Of 38

Comments:

- All companies listed here must provide their latest information in accordance with Barsoo Co.'s Manufacturer Information Form prior to signing any contract.
- Products from second-grade manufacturers, such as paint, bolts, nuts, and electrodes, will only be approved for non-industrial applications. For other applications (including equipment, heavy and critical structures, welding wires/rods, electrodes, bolts, nuts, and paint), materials must be sourced exclusively from first-grade manufacturers.
- Companies on this list are required to update their Manufacturer Information Form every two years. This update must also be Consider prior to signing any new contract.
- Please note the expiration date of the current revision of the Approved Vendor List (AVL), which is indicated on the first page. The AVL is updated quarterly.
- The Contractor shall procure all major equipment, critical bought-out components and performance-related subassemblies exclusively from the Approved Vendor List.
- **Steel Structure Requirements:**
 - I. Heavy Steel Structures:**
 - Companies in this category must have a production capacity exceeding 700 tons per month.
 - Their factory equipment must be capable of producing parts weighing over 25 tons.
 - Only heavy steel structure companies are approved for producing furnace steel structures.
 - II. Semi-Heavy Steel Structures:**
 - Companies in this category must have a production capacity ranging from 400 to 700 tons per month.
 - Their factory equipment must be capable of producing parts weighing between 10 and 15 tons.
 - III. Light Steel Structures:**
 - Companies in this category must have a production capacity of less than 400 tons per month.
 - Their factory equipment must be capable of producing parts weighing less than 5 tons.
- ❖ Important Note: Please ensure compliance with the above requirements and pay close attention to the remarks provided.

Vendor	Remark	Country
AC UPS		
Amak Koosha	Main materials, consumables and bought-out components of AC UPS System shall be from approved vendors/manufacturers as per Project Vendor List, mainly including UPS unit, batteries, battery racks/cabinets, bypass switch, transformers, Filters, circuit breakers, cables and cable accessories, earthing/grounding components, monitoring and control instruments, control panel and accessories.	IRAN
Ara Tajhiz System (ATSYS)		IRAN
Manabe Taghzieh Electronic (PSP)		IRAN
Pars Kavir Arvand		IRAN
Tavan Electric Pooyesh		IRAN
Automatic Voltage Regulation Panel (AVR)		
Ista Noavaran Niroo	Main materials, consumables and bought-out components of Automatic Voltage Regulation Panel (AVR) shall be from approved vendors/manufacturers as per Project Vendor List, mainly including voltage regulator unit or relays, power transformers, circuit breakers, contactors, relays, measuring instruments (voltmeter, ammeter, power meter), current transformers (CT), potential transformers (PT), busbars, cables and cable accessories, earthing/grounding components, control panel enclosure, switches, terminals and accessories. Utility

Vendor	Remark	Country
Air Blower		
Mangan	Main materials, consumables and bought-out components of Air Blower shall be from approved vendors/manufacturers as per Project Vendor List, mainly including air-end/blower element, blower unit, electric motor, bearings, coupling/V-belt, base frame, silencer, filter, vibration switch/sensor, pressure instruments, valves/dampers, control panel, bolts/nuts, gaskets, paint/coating materials and accessories.	IRAN
Sanaye Vacuum Pars		IRAN
Taghiz Arg Parsian (TAPCO)		IRAN
Air Cooler		
Aban	Main materials, consumables and bought-out components of Air Cooler shall be from approved vendors/manufacturers as per Project Vendor List, mainly including finned tubes/tube bundle, headers, fan, electric motor, gearbox/V-belt drive, bearings, vibration switch/sensor, louvers/dampers, instruments, control panel, steel structure, bolts/nuts, gaskets Flange, Pipe, welding consumables, paint/coating materials and accessories.	IRAN
Damafin		IRAN
Fateh Sanat Kimia		IRAN
Air Washer		
Saran	Main materials, consumables and bought-out components of Air Washer shall be from approved vendors/manufacturers as per Project Vendor List, mainly including casing/body, spray nozzles, water circulation pump, eliminator/demister, filters, fan/blower, electric motor, valves, instruments, control panel, steel plates/sections, bolts/nuts, gaskets, welding consumables, paint/coating materials and accessories.	IRAN
Saravel		IRAN
Sarma Afarin		IRAN
Tahviah		IRAN
Yekta Tahviah Arvand		IRAN
Boiler		
Azar Dama Gostar	Main bought-out components and materials of Boiler Package shall be from approved vendors/manufacturers as per Project Vendor List, mainly including burner, boiler tubes, pressure parts, refractory/insulation materials, feed water pump, valves, safety valves, instruments, control panel, PLC/BMS, fans/blowers, welding consumables, paint/coating materials and accessories.	IRAN
Daboo Sanat		IRAN
Pakman		IRAN
Chemical Injection Package		
Hydro Pars	Main materials, consumables and bought-out components of Chemical Injection Package shall be from approved vendors/manufacturers as per Project Vendor List, mainly including chemical injection pumps (metering/dosing pumps), chemical storage tanks/vessels, skid frame/structure, suction strainers and filters, pressure relief valves, check valves, isolation valves and actuators, flow meters and indicators, pressure gauges and transmitters, level indicators and transmitters, piping, pipes, flanges, fittings and gaskets, cables and cable accessories, earthing/grounding components, control panel and instrumentation, bolts/nuts, welding consumables, paint/coating materials and accessories.
