------------------	------------------

	Document Title: Approved Vendor List	
	Document No.: 30-A001-03	
Barsoo Engineering Co.	Revision: 02	Page: 3 Of 30

Comments:

- All the companies listed here, before signing the contract shall provide their latest information according to manufacturer's information form of Barsoo Co.
- Products of 2nd grade manufacturers such as paint, bolt & nut will be sampled periodically by Barsoo's inspector and will be sent to the third-party laboratory. In case of heavy and critical structures, welding wires/rods, electrodes and bolts & nuts shall be supplied from the 1st grade manufacturers. In case of equipment, welding wires/rods, electrodes, bolts & nuts and paints shall be supplied from the 1st grade manufacturers.
- All the Companies in this list need to update their manufacturer information form in two years' intervals, before signing any contract.
- Please attention the Expire Date of current revision of AVL which mention at first page, cause each three month it is updated.
- The title which does not exist at the AVL, The contractor shall introduce the company and evaluated by barsoo engineering before signing the contract.
- About the steel structure:
 - The meaning of heavy steel structures: Companies that are placed in this category, whose product is above 800 tons per month, and according to the equipment in the factory, they can produce parts above 25 tons.
- ❖ For furnace steel structure only Heavy steel structures companies are approved.
 - The meaning of semi-heavy steel structures: Companies that are placed in this category, whose maximum product is between 500~700 tons per month, and according to the equipment in the factory, they can produce parts between 10~15 tons.
 - The meaning of light steel structures: Companies that are placed in this category, whose product is less than 400 tons per month, and according to the equipment in the factory, they can produce parts less than 5 tons.
- ❖ It is necessary to pay attention to the Remark.
